BUILDING BRIDGES BETWEEN INTERNATIONAL PHILANTHROPY AND CHINESE COMMUNITIES

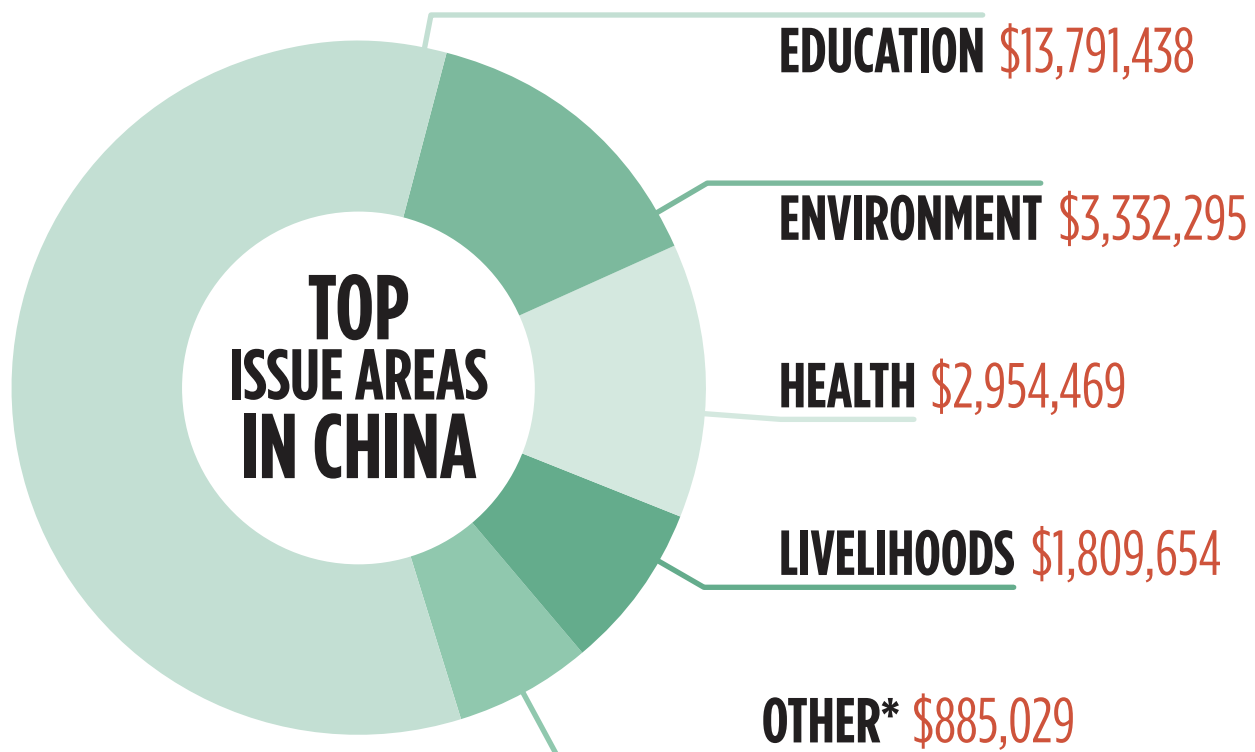

From education to the environment, disaster response to social services, our team of local staff, in-country advisors, and trusted charities enable effective projects with transparent results.

Give2Asia works with individuals, family foundations, and corporations to facilitate giving to local charities across China, including Hong Kong SAR and Taiwan.

OUR 2023 GRANTS TO CHINA

173 GRANTS MADE

\$23.3 MILLION GRANTED

*Social services, women and girls, arts and culture, disaster response, civil society, persons with disabilities

SIGNATURE PROGRAMS

RURAL DOCTORS TCM TRAINING:

Elevating Healthcare in underserved areas through Traditional Chinese Medicine (TCM). This initiative bridges the healthcare divide by providing rural doctors with a year-long immersion with TCM experts. We aim to enhance their clinical and diagnostic skills, addressing the critical need for quality TCM in rural settings. Through this program, we not only strive to avert poverty linked to healthcare issues, but also fuel rural community revitalization.

TOMORROW-ICAN:

Empowering high school students from families without any college attendees through educational scholarships and extensive mentoring. Our initiative focuses on enhancing students' academic skills and college readiness, aiming to cultivate the first generation of college graduates in their families. By supporting these promising students, we contribute to their families' socio-economic advancement and lay the groundwork for lasting community development.

DISASTERLINK:

When disaster strikes, DisasterLink enables donors to give quickly and confidently. With DisasterLink, a curated network of trusted local partners in countries at high risk for natural disasters, Give2Asia is equipped to provide immediate relief during a crisis and help communities rebuild and recover in the long term.

Give2Asia is a founding member of the Myriad Alliance, a global network of nonprofits that connects donors with an established global community of peers and partners who possess deep knowledge of philanthropic causes, as well as the legal, fiscal, and cultural contexts vital to turning good intentions into positive actions.

SERVICES

DONOR-ADVISED FUNDS:

Helping donors achieve their desired impact to support the issues they care about in the communities that matter most. As one of the few US-based NGOs authorized to make grants under China's ONGO law, Give2Asia is uniquely positioned to support charitable causes in China.

FRIENDS FUNDS:

Offering a straightforward, reliable, and tax-efficient method for donors to support local Chinese charities as well as a means for charities to receive international donations without the trouble and expense of setting up a U.S.-based 501(c)3.

DISASTER RELIEF GRANTS AND SERVICES:

Enabling corporate and individual donors to support Chinese charities providing emergency relief in humanitarian crises and natural disasters—and facilitating long-term recovery.

As a 501c3 Public Charity in the US and as a Section 88 Private Foundation in China-Hong Kong SAR, Give2Asia makes it easy for your overseas donation to qualify for local tax benefit.
