

Local Knowledge Counts.

25 years of experience in philanthropy to China

25
YEARS
OF IMPACT

Give2Asia is a US-based 501(c)3 public charity working with individuals, family foundations, and corporations to support community-led charities across China, including mainland China, Hong Kong SAR and Taiwan. Our Beijing-based staff bring years of local knowledge and long-standing relationships that ensure every grant is compliant and managed according to both China and US laws.

WHY DONORS CHOOSE US

- ✓ Local staff and expertise where it matters most
- ✓ Specialized knowledge of China's regulatory environment
- ✓ Beijing Representative Office licensed to operate nationwide under China's ONGO law—across all issue areas
- ✓ Trusted relationships with hundreds of vetted charitable organizations
- ✓ Rigorous due diligence and stewardship
- ✓ Flexible giving options tailored to individuals, families, foundations & corporations

OUR SERVICES

Grounded in deep local knowledge and regulatory expertise, Give2Asia's services help donors navigate cross-border giving with confidence, efficiency, and impact.

Donor-Advised Funds

A donor-advised fund is a flexible tool for individuals, families, and corporations to support their preferred nonprofit initiatives. With gifts into your fund, you can claim an immediate tax deduction and over time advise where grants from the fund are distributed.

Friends Funds

A friends fund provides Chinese nonprofits with a cost-effective solution for their overseas supports to make tax-efficient donations in the United States. Friends funds are an alternative to registering a US-based arm for fundraising—reducing fundraising costs overseas and simplifying management.

Advisory & Research

Give2Asia's advisory services leverage our team's extensive in-depth knowledge and support. Our work is tailored to meet your needs in areas such as local project identification, due diligence, project monitoring, detailed regional issue research, and more.

OUR SERVICES *(continued)*

Corporate Giving

Our grant facilitation and management capabilities offer an effective pathway for corporations and their foundation to engage with communities in China. Leveraging our China-based staff, we deliver end-to-end partnership building, cross-border grant-making compliance, and custom project reporting.

Legacy Funds

A legacy fund is an invested, charitable vehicle that over time supports the communities and issues close to your heart. With contributions into your legacy fund, you can build a pool of funds that are dedicated for grant making to your preferred charities and causes in perpetuity or over a specified number of years. Your contributions can be made during your lifetime, through a charitable bequest, or via other planned gifts.

DisasterLink in China

When disaster strikes China, our network of local disaster response charities provides immediate relief and facilitates long-term recovery. Each pre-positioned member is highly invested in the areas they serve, enabling them to help communities rebuild and recover long after the immediate crisis is over.

SIGNATURE PROGRAMS

Beyond grantmaking and consulting services, Give2Asia's signature programs work with local partners to drive lasting impact in healthcare, education, and family well-being.

Rural Doctors TCM Training

Elevating Healthcare in underserved areas through Traditional Chinese Medicine (TCM). This initiative bridges the healthcare divide by providing rural doctors with a year-long immersion with TCM experts. We aim to enhance their clinical and diagnostic skills, addressing the critical need for quality TCM in rural settings.

Tomorrow-iCAN

Empowering high school students from families without any college attendees through educational scholarships and extensive mentoring. Our initiative focuses on enhancing students' academic skills and college readiness, aiming to cultivate the first generation of college graduates in their families.

Rural Healthy Family

Implementing a rural family health management model to improve hypertension control rates among rural residents through various intervention measures and providing health education. The goal is to reduce the incidence of cardiovascular diseases in rural communities.

*Give2Asia is a founding member of **Myriad—the Alliance for Borderless Giving**, a network of like-minded organizations who encourage, stimulate, and facilitate cross-border giving, each in the country or region where they are based.*
